PERSONAL PROJECTS

Real-time Chat Application Development: (09/2023 - 10/2023)

Created a real-time chat application using Node.js, Express.js, and Socket.io.

Implemented features such as instant messaging, user presence detection, and message history.

Designed a responsive and intuitive user interface for seamless communication on both web and mobile platforms.

Content Management System (CMS) Development: (09/2023 - 10/2023)

Designed and built a customizable CMS using PHP and MySQL.

Implemented user-friendly interfaces for content creation, editing, and management.

Incorporated role-based access control to regulate user permissions and ensure data security.

E-commerce Website Development: (08/2023 - 09/2023)

Developed and deployed an e-commerce website using HTML, CSS, JavaScript and React.

Integrated secure payment gateways and user authentication systems, ensuring a seamless shopping experience.

Implemented responsive design principles for optimal user experience across various devices.

ACHIEVEMENTS

Smart India Hackathon 2023 (09/2023 - 12/2023)

Recognizing the pressing need for mental health support among the youth and frontline workers, we proposed a solution aimed at addressing this critical issue.
